Χωρική κατανομή φωλιών - ακτή Μούντας 2020
(Regional distribution of nests - Mounda beach 2020)

(Regional distribution of False Crawls - Mounda beach 2020)

(Regional distribution of Investigation - Mounda beach 2020)

Problems on the beach:

- Light pollution: more lighting in Katelios village and on Mounda beach from the hotels
- Destruction of bamboo nests by people

- Some snack bars did not apply the regulation distance to protect *Caretta caretta*'s nest
- More erosion in decline parts of the beach
- Impact of building development in decline part
